

BINGO for KIDS Grades K-2*

B (Be Creative)	I (I Can Do This - Building Independence**)	N (NOTHING but ideas to get you started)	G (Get Ready, Get Set, GO!)	O (Own Your Learning!)
Create sock puppets & put on a show!	Help clean up the kitchen after dinner	Do...something outside with twigs	Geocache with your family!	Take turns reading from a chapter book with a parent or older sibling.
Have a family member trace your outline in chalk on your driveway or sidewalk & create a self portrait!	Learn how to tie your shoes	Do...something with paper	Create a "balance beam" out of sidewalk chalk (a simple line is perfect) & create your own balance beam routine!	Measure how long your balance beam is in inches.
Design & create your own bookmark to use with your chapter book!	Work on/learn how to ride a bike	FREE	Have a free-throw shooting contest	Draw a picture to thank someone you know who's helping sick people right now.
Create your own String Art! Get a piece of cardboard and lightly sketch a pattern for your design. Squirt glue along the major lines of your design. Lay the string on the glue. Let the yarn come to the edge of the paper. Continue gluing string to follow the lines of the design. You may want to leave some areas open for the background color to show through.	Help your family plant a garden and water it	Do...something with acorns or pinecones	Play an old game called "StinkFish" - go on a walk with your family & try not to step on any cracks or sidewalk squares with stamps or markings. Keep track of how many you step on - whoever has the least @ the end of the walk wins!	While you're on a walk, look birds you see. Remember what 1 looked like and come home & draw/paint a picture of it and learn what kind of bird it is.
Patriotic Paintings - Cut any shape you feel like out of white paper. Paint your shape a bright & bold red-white- & blue design using stars & stripes!	Empty the kitchen trash	Do...something outside with leaves	Hula Hoop or Jump Rope!	Draw or paint a picture of your house. Think about questions to learn more about your house - how long has your family lived there? When was it built? Do you know who built it?

**Each child is unique, so the grades listed should only be used as a guide. Some children may be able to do certain things at younger ages, while others may not be ready to do them until they are a bit older. Parents should use their discretion.*
